

Please do not expand Low Power FM to take priority over Translator Stations. I listen to Airl at 88.7 and KBAQ at 89.3, 89.5, and 89.7. All of these stations are translators. KBAQ is the ONLY classical music station in the Phoenix area. Additionally, Air 1 is one of only two Christian Rock stations in the Phoenix area. Loss of either one of these stations to a LPFM would be detrimental to everyone in the area. Classical music is an art that everyone should have some exposure to during their life. The loss of that station to a LPFM would eliminate all classical music from the Phoenix area. Also, Christian music and the services provided by Air 1 are important to maintaining a strong moral base. The loss of this station to LPFM would prove to be detrimental to the moral compass of the community.

Again, Please do not let LPFM expand to take priority over translator stations.

Thank you,  
David Elting
